

**Common Ground Country Fair
Low Impact Forestry
2024 Scholarship Application**

Dear Low Impact Forestry Applicant,

With the addition of a small booth fee in the Low Impact Forestry area, we have created this scholarship application for those organizations that would like to exhibit in the area, but for whom it would be a barrier to pay for the space. Please understand that while we want to be sure that the space is available to all groups regardless of their finances, we also cannot offer too many low cost or free spaces in the tent without putting financial pressure on MOFGA. Please answer the questions below and explain to us why you need and are deserving of a scholarship to exhibit in the Low Impact Forestry Area of the fair.

Please use additional pages if necessary

Name:

Organization:

Date:

Why is it valuable to the fair and the Low Impact Forestry Area in particular to have your group present?

Why is it important to your organization to be at the Common Ground Country Fair?

Please explain how saving the money that could cover the cost of your exhibitor's area can be used instead by your organization, and why it is a burden for you to pay this fee.
